Utility services are billed monthly. Meters are electronically read the 15th of the month. Billing cycles are from the 16th - 15th and are billed one month in arrears. Bills generate the first of the month and payment is due by the 20th. Payments not received by the 20th of the month are considered past due and will be charged a 5% penalty. Past due notices generate on the 21st informing the customer that they are past due and face possible service disconnection if the bill is not paid in full by the 10th of the next month.

A Special Sewer Calculation Rate will apply for applicable Residential accounts for use from May 15th to September 15th each year. This rate is calculated from consumption during October, November, and December of the previous year. Accounts that have no prior sewer consumption history will calculate with a rate of 2,000 gallons. This rate will be reflected on bills produced for July 1st, August 1st, September 1st, and October 1st.
